---

25. Estimate  $17 \times 33$  by rounding each to the nearest ten.

---

---

26. Estimate  $40 \times 47$  by rounding each to the nearest ten.

---

---

27. Estimate  $24 \times 28$  by rounding each to the nearest ten.

---

---

28. Estimate  $29 \times 49$  by rounding each to the nearest ten.

---

---

29. Estimate  $40 \times 20$  by rounding each to the nearest ten.

---

---

30. Estimate  $25 \times 17$  by rounding each to the nearest ten.

---

---

31. Estimate  $35 \times 47$  by rounding each to the nearest ten.

---

---

32. Estimate  $27 \times 31$  by rounding each to the nearest ten.

---

---

33. Estimate  $16 \times 28$  by rounding each to the nearest ten.

---

---

34. Estimate  $18 \times 22$  by rounding each to the nearest ten.

---

---

35. Estimate  $23 \times 14$  by rounding each to the nearest ten.

---

---

36. Estimate  $48 \times 27$  by rounding each to the nearest ten.

---

---

37. Estimate  $46 \times 45$  by rounding each to the nearest ten.

---

---

38. Estimate  $14 \times 18$  by rounding each to the nearest ten.

---

---

39. Estimate  $28 \times 42$  by rounding each to the nearest ten.

---

---

40. Estimate  $18 \times 28$  by rounding each to the nearest ten.

ANSWER KEY

# Grade 4 Estimation Worksheet

---

1. Estimate  $13 \times 15$  by rounding each to the nearest ten.  
**200**
2. Estimate  $18 \times 14$  by rounding each to the nearest ten.  
**200**
3. Estimate  $24 \times 47$  by rounding each to the nearest ten.  
**1000**
4. Estimate  $39 \times 22$  by rounding each to the nearest ten.  
**800**
5. Estimate  $49 \times 13$  by rounding each to the nearest ten.  
**500**
6. Estimate  $32 \times 23$  by rounding each to the nearest ten.  
**600**
7. Estimate  $21 \times 17$  by rounding each to the nearest ten.  
**400**
8. Estimate  $19 \times 28$  by rounding each to the nearest ten.  
**600**
9. Estimate  $42 \times 40$  by rounding each to the nearest ten.  
**1600**
10. Estimate  $40 \times 19$  by rounding each to the nearest ten.  
**800**
11. Estimate  $49 \times 31$  by rounding each to the nearest ten.  
**1500**
12. Estimate  $21 \times 26$  by rounding each to the nearest ten.  
**600**
13. Estimate  $41 \times 15$  by rounding each to the nearest ten.  
**800**
14. Estimate  $23 \times 30$  by rounding each to the nearest ten.  
**600**
15. Estimate  $13 \times 31$  by rounding each to the nearest ten.  
**300**
16. Estimate  $26 \times 39$  by rounding each to the nearest ten.  
**1200**
17. Estimate  $27 \times 45$  by rounding each to the nearest ten.  
**1500**
18. Estimate  $15 \times 18$  by rounding each to the nearest ten.  
**400**
19. Estimate  $38 \times 38$  by rounding each to the nearest ten.  
**1600**
20. Estimate  $33 \times 24$  by rounding each to the nearest ten.  
**600**

21. Estimate  $47 \times 29$  by rounding each to the nearest ten.  
**1500**
22. Estimate  $16 \times 17$  by rounding each to the nearest ten.  
**400**
23. Estimate  $13 \times 27$  by rounding each to the nearest ten.  
**300**
24. Estimate  $19 \times 20$  by rounding each to the nearest ten.  
**400**
25. Estimate  $17 \times 33$  by rounding each to the nearest ten.  
**600**
26. Estimate  $40 \times 47$  by rounding each to the nearest ten.  
**2000**
27. Estimate  $24 \times 28$  by rounding each to the nearest ten.  
**600**
28. Estimate  $29 \times 49$  by rounding each to the nearest ten.  
**1500**
29. Estimate  $40 \times 20$  by rounding each to the nearest ten.  
**800**
30. Estimate  $25 \times 17$  by rounding each to the nearest ten.  
**600**
31. Estimate  $35 \times 47$  by rounding each to the nearest ten.  
**2000**
32. Estimate  $27 \times 31$  by rounding each to the nearest ten.  
**900**
33. Estimate  $16 \times 28$  by rounding each to the nearest ten.  
**600**
34. Estimate  $18 \times 22$  by rounding each to the nearest ten.  
**400**
35. Estimate  $23 \times 14$  by rounding each to the nearest ten.  
**200**
36. Estimate  $48 \times 27$  by rounding each to the nearest ten.  
**1500**
37. Estimate  $46 \times 45$  by rounding each to the nearest ten.  
**2500**
38. Estimate  $14 \times 18$  by rounding each to the nearest ten.  
**200**
39. Estimate  $28 \times 42$  by rounding each to the nearest ten.  
**1200**
40. Estimate  $18 \times 28$  by rounding each to the nearest ten.  
**600**
